ANDREW
GUTMANN
FOR CONGRESS

For most of my life, I considered myself politically homeless because I was disgusted by the hypocrisy, corruption, and broken promises of both parties.

But I never expected to witness what we have seen over the past several weeks. I am horrified not just by the massacre of innocents in Israel, but also by the pro-Hamas rallies on college campuses and in our cities.

It has become clear that the Democratic Party has been infected by a viral strain of radical, progressive ideology that is hostile to free speech, scornful of capitalism, and antisemitic at its core.

This ideology divides the world into two classes: oppressor and oppressed. Pervasive in our universities and K-12 schools, it teaches that Israel is an oppressive state, labels Jews as part of white supremacy culture, and portrays Hamas terrorists as oppressed freedom fighters.

It is time that Jewish Americans take a stand, as I have, to register Republican and vote Republican in November 2024. Our safety and security as Jews in America, and Israel's survival as a nation depends on it.
